- Ⓓ Vertikalschnitt Fenster mit Fixverglasung
- Ⓔ Sección vertical ventana con cristal fijo
- Ⓕ Coupe verticale fenêtre avec vitre fixe
- Ⓚ Vertical section of the window's lower ledger with fixed glass

Istruzioni per l'incollaggio degli spossen al vetro:

- Pulire la superficie del vetro con solvente alcolico;
- Pulire la superficie del profilo in bronzo in cui andrà in appoggio il nastro con soluzione LCPRIMER86;
- Fare aderire il nastro al profilo in bronzo e successivamente al vetro, esercitando più possibile una pressione uniforme.

NOTA: la temperatura ideale per l'applicazione del nastro bladesivo è da 20 a 38° C. L'applicazione al di sotto del 10° C è sconsigliata poiché l'adesivo risulta troppo rigido per aderire in modo appropriato.
